INTRODUCTION

STATISTICS PRESENTED IN THIS PUBLICATION

This publication presents a range of social and housing statistics produced from the 2001 Census of Population and Housing for Queensland. For comparative purposes, it includes 1996 Census data based on 2001 Census geography.

The tables in this publication provide a selection of data for the population and their housing arrangements for Urban Centres/Localities (UC/L) and Sections of State (SOS). These geographic structures classify areas according to size of the population. Whilst the UC/L classification covers only part of each state and territory, the SOS classification covers each state and territory in its entirety. Refer to the Glossary for more information about the definitions of UC/L and SOS.

The data are presented on the basis of where people were counted on Census Night ('as enumerated'), and therefore data for each geographic area include visitors to that area, but exclude those people who were away on Census Night. All tables exclude overseas visitors unless otherwise stated.

Data released in *Selected Social and Housing Characteristics, Queensland* (cat. no. 2015.3) provide various characteristics for Statistical Divisions (SDs), Statistical Subdivisions (SSDs) and Statistical Local Areas (SLAs). Refer to Appendix 2—Census Products and Services for more information.

POPULATION MEASURES

Census counts should not be confused with the Australian Bureau of Statistics (ABS) official population estimate, the Estimated Resident Population (ERP) which is used for electoral purposes and in assisting in the distribution of government funds to state and local governments. The ERP is the definitive population estimate and is derived from the census counts. For a fuller description of population measures and the derivation of ERP, please see paragraphs 6, 7 and 8 of the Explanatory Notes. Appendix 1—Estimated Resident Population includes a table showing census counts and ERP for each state and territory.

One of the important features of the Census is that it describes the characteristics of Australia's population and housing for small geographic areas and small population groups. While not available in this publication, data at the smallest geographic level (Collection District) are available in a range of census products. For more information on these products, please refer to Appendix 2—Census Products and Services. Concepts and definitions used in this publication are explained in the Glossary and more detailed information is available in the *2001 Census Dictionary* (cat. no. 2901.0). The Explanatory Notes in this publication provide a discussion of the scope and coverage of the Census, the different measures of population, and the limitations of census data.

This publication is one of a series of publications which provide data for both UC/L and SOS geographic areas for each state and territory (cat. nos 2016.1–7). A similar publication is also available, providing data for urban centres across the whole of Australia (cat. no. 2016.0). See Appendix 2—Census Products and Services for more information.

SUMMARY OF FINDINGS

PERSON CHARACTERISTICS

Population distribution

The Census of Population and Housing conducted on 7 August 2001 counted 3,655,139 persons (including 69,500 overseas visitors) in Queensland, an increase of 8.5% or 286,289 persons since 1996 (3,368,850 persons).

There were 156 Urban Centres and 200 Localities in Queensland in 2001, four of which had population counts of above 100,000 persons: Brisbane (1,508,161), Gold Coast-Tweed Heads (Gold Coast Part) (376,533), Sunshine Coast (169,931) and Townsville-Thuringowa (119,504). These Urban Centres accounted for 59.5% of the population.

The Sunshine Coast is a newly created Urban Centre. It is an amalgamation of eleven Urban Centres /Localities which were separately published in 1996, resulting in a shift of population from Other Urban to Major Urban from 1996 to 2001.

Age

In 2001, the median age was 35 years, compared with 33 years in 1996. The proportion of persons aged 0–14 years decreased from 21.7% in 1996 to 21.1% in 2001, while the proportion of persons aged 65 years and over increased from 12.0% to 12.3% in the same period.

The highest proportions of persons aged 0–14 years were recorded in the Localities of New Mapoon and Hammond Island (both 46.6%), Talbot Islands (44.4%) and Mabuiag Island (43.5%), and the Urban Centre of Cherbourg (41.3%).

A high proportion of persons aged 65 years and over was recorded in the Urban Centres of Bongaree (30.5%), Woorim (29.3%) and Crows Nest (28.0%), and in the Localities of Burrum Heads (43.1%), Woodgate (41.7%) and Seaforth (40.3%).

Sex

In 2001, there were more females (1,851,329) than males (1,803,810) with higher proportions of females recorded in urban areas (Major Urban (51.3%) and Other Urban (50.7%)). Proportionally more males were recorded in Rural Balance (52.1%) and Bounded Locality (50.5%) sections of the state.

A higher proportion of females was recorded in the Urban Centres of Woodford (63.8%), Maleny (54.3%), Eagle Heights (54.1%) and Cooroy (54.0%), and in the Localities of Herberton (58.2%), Mapleton (55.6%), Umagico (55.3%) and Horseshoe Bay (55.1%).

Males outnumbered females in 184 Urban Centres and Localities. A higher proportion of males was recorded in the Urban Centres of Tieri (59.4%), Dysart (58.8%) and Middlemount (57.9%), and in the Localities of Ravenswood (63.3%), Glenden (59.7%) and Burketown (58.4%).

Median individual income

The median weekly income grew from \$286 in 1996 to \$359 in 2001, an increase of 25.5%, with increases in the Bounded Locality (24.6%), Major Urban and Other Urban (both 23.9%) and Rural Balance (23.8%) sections of state.

The highest median incomes were recorded in the Urban Centres of Tieri (\$922), Middlemount (\$829) and Weipa (\$707), while Localities with high median incomes were Glenden (\$828), Ravenswood (\$725) and Pallarenda (\$517). The lowest median incomes were recorded in Wujal Wujal (L) (\$114), Aurukun (L) (\$151), Palm Islands (\$180) and Kowanyama (L) (\$180).

SUMMARY OF FINDINGS *continued*

Indigenous status

The number of persons who reported being of Indigenous origin increased by 18.1% to 112,772 persons in 2001, up from 95,518 persons in 1996, representing 3.1% of the total population (excluding overseas visitors).

Over half (54.8%) of the Urban Centres and Localities reported proportions of Indigenous persons equivalent to, or less than, the average for Queensland (3.1%). The highest proportions were recorded in the Localities of Injinoo (96.7%), Warraber Island and Murray Island (both 95.8%), and in the Urban Centres of Cherbourg (96.4%) and Yarrabah (93.7%).

Birthplace

The number of persons born in Australia increased by 5.5% to 2,786,359 persons in 2001, up from 2,640,643 persons in 1996, representing 77.7% of the population of Queensland (excluding overseas visitors).

In 80 of the Urban Centres and Localities, 90.0% or more of the population were born in Australia. The highest proportions were recorded in the Localities of Mabuiag Island and Umagico (both 100.0%).

Of the 3,585,639 persons (excluding overseas visitors) counted in Queensland, 17.2% (616,168 persons) stated that they had been born overseas, with the highest proportions recorded in Kooralbyn (29.4%), Oak Beach (L) (29.1%) and Horseshoe Bay (L) (28.8%).

Internet and Personal computer use

Of the population counted, 41.3% (1,481,238 persons) used a personal computer at home in the week prior to Census Night. Of the same population, 35.7% (1,280,831 persons) used the Internet in the week prior to Census Night.

The highest proportions of persons who used a personal computer at home were recorded in Bellbowrie (66.5%), Blue Mountain Heights (L) (64.2%), Nindaroo (L) (62.8%) and Mount Glorious (L) (56.3%), while low proportions were recorded in the Localities of Napranum and New Mapoon (both 1.8%) and Warraber Island (1.9%).

Employed persons

In 2001, there were 1,568,864 employed persons (91.8% of the labour force), an increase of 10.4% (148,196 persons) since 1996 (1,420,668 persons).

Urban Centres with the largest numbers of employed persons were Brisbane (688,262 or 92.2% of the labour force), Gold Coast-Tweed Heads (Gold Coast Part) (151,944 or 90.3%), Sunshine Coast (62,677 or 88.6%) and Townsville-Thuringowa (54,876 or 91.4%). This pattern is similar to the population distribution.

Full-time employment

The number of full-time workers increased from 962,011 in 1996 to 1,002,596 in 2001. This represented 63.9% of the employed population in Queensland. As a proportion of persons in the labour force, the highest proportions of full-time workers were recorded in the Localities of Ravenswood (78.8%) and Macknade (77.6%). Urban Centres with the highest proportions of full-time workers were Middlesmount (75.2%) and Tieri (75.1%).

Part-time employment

In 2001, 518,158 workers (33.0% of employed persons) were employed part-time, an increase of 21.1% (90,365 persons) since 1996. The highest proportions of part-time workers, as a proportion of persons in the labour force, were recorded in the Localities of Yorke Island (74.7%) and Wujal Wujal (73.2%). The Locality with the lowest proportion of part-time workers was Ravenswood (16.4%).

SUMMARY OF FINDINGS *continued*

Unemployed persons

In 2001, there were 140,748 unemployed persons (8.2% of persons in the labour force), compared with 151,717 persons (9.6%) in 1996. High unemployment rates were recorded in the Localities of Glenwood (39.4%), Pacific Haven (32.7%) and Torbanlea (27.4%).

For those aged 15–24 years, the unemployment rate fell from 16.4% in 1996 to 15.3% in 2001. The highest youth unemployment rates were recorded in the Localities of Yuleba (60.0%), Glenwood (58.3%) and Ball Bay (57.1%).

The number of unemployed persons looking for full-time employment decreased by 16.0% from 120,966 persons in 1996 to 101,660 in 2001. However, those looking for part-time work increased by 27.1% from 30,751 persons in 1996 to 39,088 in 2001.

Occupation

In 2001, the largest occupation groups were Professionals and Associate Professionals (28.0% of employed persons), Intermediate Clerical, Sales and Service Workers (16.9%) and Tradespersons and Related Workers (12.8%). These proportions are similar to those in 1996.

The highest proportions of Professionals and Associate Professionals were recorded in the Localities of Mount Nebo (57.9%), Mount Glorious (53.5%) and Boreen Point (51.9%).

The highest proportions of Intermediate Clerical, Sales and Service Workers were in the Localities of Ball Bay (23.7%), Minden (23.0%) and Saunders Beach (21.9%).

The highest proportions of Tradespersons and Related Workers were recorded in Torbanlea (L) (29.4%), Thargomindah (L) (25.9%) and Dysart (25.1%).

Industry

In 2001, the three largest industries of employment in Queensland were Retail Trade (15.3%), Manufacturing (10.7%) and Property and Business Services (9.8%). These industries were also the top three in 1996, with Health and Community Services equal to Property and Business Services.

The highest proportions of persons employed in Retail Trade were recorded in Pacific Haven (L) (26.3%), Coral Cove (L) (22.8%) and Curra (22.7%).

The highest proportions of persons employed in Manufacturing were recorded in the Localities of Giru (43.6%), Imbil (36.6%) and Macknade (36.4%).

The highest proportions of persons employed in Property and Business Services were recorded in the Localities of Mount Nebo (18.8%), Bellbowrie (16.9%) and Port Douglas (16.2%).

DWELLING CHARACTERISTICS

Total number of dwellings

The number of dwellings increased by 11.8% from 1,329,800 in 1996 to 1,487,193 in 2001. Of these dwellings, 91.2% (1,355,613) were occupied private dwellings, 8.5% were unoccupied private dwellings and 0.3% were non-private dwellings.

Total number of persons

The number of persons in occupied private dwellings increased by 9.3% from 3,211,805 in 1996 to 3,511,352 in 2001. Of these, 60.0% (2,106,725 persons) were counted in Major urban areas, compared with 50.0% in 1996.

SUMMARY OF FINDINGS *continued*

Fully owned

Of the 1,355,613 occupied private dwellings in Queensland, 36.6% were fully owned, compared with 38.7% in 1996. The Rural Balance area recorded the highest proportions of fully owned dwellings in both 2001 (47.0%) and 1996 (46.8%).

Home ownership proportions were highest in the Localities of Willows Gemfields (77.6%), Woodgate (68.9%), Burrum Heads and Lucinda (both 67.4%).

Being purchased

In Queensland, 25.8% of private dwellings were being purchased, similar to 24.8% in 1996. The Rural Balance areas recorded the highest proportions in both 2001 (27.3%) and 1996 (28.3%).

High proportions of homes being purchased were recorded in Minden Village (L) (67.1%), Bohle Plains (60.6%) and Wyreema (L) (60.5%).

Housing loan repayments

The median monthly loan repayment increased by 5.1% from \$808 in 1996 to \$849 in 2001. High median loan repayments were recorded in Burketown (L) (\$2,000), Newell (L) (\$1,358) and Hamilton Island (\$1,320).

Rented dwellings

In 2001, 30.1% (408,117) of occupied private dwellings were being rented, the same proportion as recorded in 1996. The Other Urban areas recorded the highest proportions in both 2001 (33.3%) and in 1996 (34.4%).

The highest proportions of rented dwellings were recorded in Cherbourg (93.4%), Napranum (L) (93.3%) and Hope Vale (L) (89.7%).

Rent

The median weekly rent payment increased by 14.8% from \$128 in 1996 to \$147 in 2001. The Major Urban areas recorded the highest median rent (\$163), compared with the Rural Balance (\$102) and the Bounded Locality (\$94) sections of the state.

A high median rent was recorded in the Urban Centres of Hamilton Island (\$317), Port Douglas (\$258), and Craiglie (\$215), and in the Localities of Arcadia Bay (\$312), Blue Mountain Heights (\$233) and Samford (\$189).

FAMILY CHARACTERISTICS

The number of families grew from 853,168 in 1996 to 933,928 in 2001, an increase of 9.5%. Of these families, 44.7% were couples with dependent and non-dependent children, 37.4% were couples without children, 16.0% were one parent families and 1.8% were of other family type. In the Rural Balance area, 46.5% of couple families had dependent children, compared with the 1996 figure of 50.6%.

The highest proportions of couple families with dependent children were recorded in Tieri (65.6%), Yam Island (L) (65.2%), Wyreema (L) (61.9%) and Gowrie Junction (L) (61.0%).

The highest proportions of couple families without children were recorded in the Localities of Willows Gemfields (83.8%), Woodgate (83.8%) and Seventeen Seventy (81.0%).

The highest proportions of one parent families were recorded in Cherbourg (51.1%), Marpuna (L) (46.3%) and Woorabinda (L) (41.4%).

SUMMARY OF FINDINGS *continued*

HOUSEHOLD CHARACTERISTICS

The number of households grew from 1,146,960 in 1996 to 1,275,420 in 2001, an increase of 11.2%. Of these households, 72.3% were family households, 23.2% were lone person households and 4.5% were group households. This is similar to the proportions in 1996 (73.3%, 21.7% and 5.0% respectively).

The highest proportions of lone person households were recorded in the Localities of Sapphire (41.8%), Injune (41.7%) and Kilkivan (40.8%). Areas recording the lowest proportions were Alice River (3.7%), Gowrie Junction (L) and Yarrabah (both 5.3%).

The highest proportions of group households were recorded in the Urban Centres of Port Douglas (16.5%), Hamilton Island (14.9%) and Airlie Beach (12.9%).

EXPLANATORY NOTES

SCOPE AND COVERAGE

1 The 2001 Census of Population and Housing was held on 7 August 2001. Australia's first national Census was held in 1911 and since 1961 a census has been taken every five years, a frequency which is specified in the *Census and Statistics Act 1905*. The objective of the Census is to count the number of people in Australia on Census Night, identifying their key characteristics and those of the dwellings in which they live.

2 The Census aims to count every person who spent Census Night in Australia. This includes Australian residents in Antarctica and people in the territories of Jervis Bay, Cocos (Keeling) Islands and Christmas Island. The other Australian External Territories, Norfolk Island and minor islands such as Heard and McDonald Islands, are outside the scope of the Australian Census. The only people in Australia on Census Night who are excluded from the Census are foreign diplomats and their families.

3 The Census includes people on vessels in or between Australian ports, on board long distance trains, buses or aircraft and on oil or gas rigs off the Australian coast. People entering Australia before midnight on Census Night are counted while people leaving an Australian port for an overseas destination before midnight on Census Night are not. Visitors to Australia are included regardless of how long they have been in the country or how long they plan to stay. However, for people who intend to be in Australia less than one year, only basic demographic data are available. The Census includes homeless people and people camping out.

4 All occupied dwellings are counted in the Census with the exception of diplomatic dwellings. Unoccupied private dwellings are also counted with the exception of unoccupied dwellings in caravan parks, marinas and manufactured home estates, and units in accommodation for the retired or aged (self-care). Unoccupied residences of owners, managers or caretakers of such establishments are counted.

5 Details about the 2001 Census content, collection operations, confidentiality and privacy protection, processing and evaluation activities are contained in *2001 Census of Population and Housing: Nature and Content* (cat. no. 2008.0).

ABS POPULATION ESTIMATES

6 All counts in this publication are on a 'place of enumeration' basis. 'Place of enumeration' means where the person was counted on Census Night. The Census can provide person counts based on 'place of usual residence' for Collection Districts (CDs) and aggregations of CDs. Appendix 1—Estimated Resident Population highlights the difference between these two measures.

7 The Estimated Resident Population (ERP) is the official Australian Bureau of Statistics (ABS) estimate of the Australian population. The ERP is based on results of the Census of Population and Housing. It is compiled as at 30 June of each census year and updated quarterly between censuses. The intercensal estimates of the resident population are revised following the next census.

8 The ERP is derived from census usual residence counts, by making the following three important adjustments:

- An adjustment for census net underenumeration (or undercount). The level of underenumeration is derived from the Post Enumeration Survey which is conducted soon after the Census, and from estimates based on demographic analysis.

EXPLANATORY NOTES *continued*

ABS POPULATION ESTIMATES

continued

- The inclusion of an estimated number of Australian residents who are temporarily overseas on Census Night and are therefore not covered by the Australian Census. The number of such people is estimated from statistics on overseas arrivals and departures.
- The third adjustment occurs because the Census does not fall on 30 June. For example, the 2001 Census was held on 7 August. Back dating of population estimates from 7 August to 30 June is accomplished using data from birth and death registrations, overseas arrivals and departures, and estimates of interstate migration, for the period 1 July to 7 August.

9 ABS population estimates are published in *Australian Demographic Statistics* (cat. no. 3101.0), produced quarterly, and in *Population by Age and Sex, Australian States and Territories* (cat. no. 3201.0) produced annually. ERPs for Statistical Local Areas (SLAs) are published in *Regional Population Growth, Australia and New Zealand* (cat. no. 3218.0).

10 The ABS also provides projections (based on different assumptions as to future fertility, mortality and migration) of the resident population of Australia, states and territories. These projections are published every two years in *Population Projections, Australia* (cat. no. 3222.0).

DATA LIMITATIONS

11 Census data are subject to a number of inaccuracies resulting from errors by respondents or mistakes in collection or processing. Whilst many of these are corrected by careful processing procedures, some still remain. The effect of the remaining errors is generally slight, although it may be more important for small groups in the population. The main kinds of error to keep in mind are:

- *Partial non-response*: In some cases where an answer is not provided to a question, an answer is imputed (often from other information on the form). In other cases a 'Not stated' code is allocated.
- *Processing error*: While such errors can occur in any processing system, quality management is used continuously to improve the quality of processed data, and to identify and correct data of unacceptable quality.
- *Random adjustment*: Table cells containing small values are randomly adjusted or suppressed to avoid releasing information about particular individuals, families, or households. The effects of these adjustments are statistically insignificant.
- *Respondent error*: Because processing procedures cannot detect or repair all errors made by people in completing the forms, some remain in final data.
- *Undercount*: Although the Census aims to count each person, there are some people who are missed and others who are counted more than once. The data in this publication are not adjusted for the net undercount.

12 Further information on data quality is provided progressively in *Census Update* and in *2001 Census Papers*.

QUALITY OF INDIGENOUS STATISTICS

13 For further information on the quality of Indigenous statistics, see *Population Distribution, Aboriginal and Torres Strait Islander Australians* (cat. no. 4705.0). This publication presents counts for Aboriginal and Torres Strait Islander Australians from the 2001 Census for Indigenous geographic areas, accompanied by information on data quality to help interpret the data. Estimates of the Indigenous population, based on the 2001 Census, are also included. For comprehensive information on the quality of Indigenous census data, see *Population Issues, Aboriginal and Torres Strait Islander Australians* (cat. no. 4708.0).

EXPLANATORY NOTES *continued*

OVERSEAS VISITORS

14 Overseas visitors are defined differently for the 2001 Census. For the 1996 Census overseas visitors were defined as any person who stated they would be in Australia for less than 6 months. For the 2001 Census they are defined as any person who stated they would be in Australia for less than 12 months. Data for overseas visitors are restricted to age, sex and marital status.

CALCULATION OF PROPORTIONS

15 When calculating the proportion of the population with a particular characteristic, 'Not stated' responses are included in the denominator. For example, in the Summary of findings, the proportion of people who are of Indigenous origin is calculated by dividing the number of persons who stated that they were of Indigenous origin by the total population and expressing the result as a percentage. The total population includes the category 'Not stated'.

16 For census variables which include data for overseas visitors i.e. age, sex and marital status, the category 'Overseas visitor' is also included in the denominator.

CALCULATION OF MEDIAN

17 A median is a measure of central tendency. It is a mid value which divides a population distribution into two, with half the observations falling below it and half above it. Unlike averages (means) medians are not usually skewed by extreme observations.

18 There are a number of issues to be aware of:

- The categories 'Not stated' and 'Not applicable' are not included in the calculation of medians.
- The category 'Overseas visitor', is only included in the calculation of the median when data for overseas visitors is collected for the variable (see paragraph 14). For example, 'Median age' (table 1) includes overseas visitors whereas 'Median weekly individual income' (also in table 1) does not.
- If a median falls into a category that has a text-only label, then a value of '0' is used for that category. For this publication this is only relevant to the calculation of 'Median weekly individual income', as the income classification (mnemonic INCP) includes categories 'Nil income' and 'Negative income'.
- When calculating a median on a classification containing ranges, the median may fall into a range which is open-ended. In this case, the median would be set to the number in the range's label. For example, in the calculation of 'Median weekly individual income', if the median was to fall in the last range *\$1,500 or more*, then \$1,500 would be allocated as the median.
- 'Median monthly loan repayment' and 'Median weekly rent' (both in table 6) are based on the ranged variables HLRD01 and RNTD01 respectively (see Glossary). This is due to difficulties associated with the large number of small cells when using individual dollar values to perform these calculations. An adjustment has been made to HLRD01, with the range *\$1,500 and over* changed to *\$1,500–\$1,999* and an additional range *\$2,000 and over* added.

UNADJUSTED DOLLARS

19 The 1996 Census dollar values for 'Median weekly individual income' (table 1), 'Median monthly loan repayment' (table 6) and 'Median weekly rent' (table 6) have not been adjusted into 2001 dollars.

ABBREVIATIONS

ABS	Australian Bureau of Statistics

APPENDIX 1 ESTIMATED RESIDENT POPULATION

POPULATION MEASURES

This table is provided to highlight the difference between the Census 'as enumerated' and 'usual residence' counts and the Estimated Resident Population (ERP). The ERP is the official Australian Bureau of Statistics (ABS) estimate of the Australian population. It is based on the Census of Population and Housing usual residence counts and is updated quarterly using births, deaths and migration data.

POPULATION MEASURES—30 JUNE AND 7 AUGUST 2001

	<i>Census as Enumerated(a)</i>	<i>Census Usual Residence(b)</i>	<i>Estimated Resident Population(c)</i>
New South Wales	6 371 745	6 326 579	6 609 304
Victoria	4 644 950	4 660 991	4 822 663
Queensland	3 655 139	3 522 044	3 635 121
South Australia	1 467 261	1 470 057	1 514 854
Western Australia	1 851 252	1 828 294	1 906 114
Tasmania	456 652	460 672	472 931
Northern Territory	210 664	188 075	200 019
Australian Capital Territory	311 947	309 998	321 680
Australia(d)	18 972 350	18 769 249	19 485 278

- (a) Number of persons counted in each state/territory on Census Night, 7 August 2001.
- (b) Number of persons usually resident in each state/territory on Census Night on 7 August 2001 regardless of where they were counted on Census Night.
- (c) These are census usual resident counts, plus Australian residents temporarily overseas on Census Night, plus the estimated census underenumeration, plus deaths and less births, net overseas migration and net interstate migration occurring between 30 June and 7 August 2001, giving estimated resident population at 30 June 2001.
- (d) Includes Other Territories.

APPENDIX 2 CENSUS PRODUCTS AND SERVICES

2001 PRODUCTS AND SERVICES

A wide range of products and services are available from the 2001 Census of Population and Housing. Brief descriptions of these are included below. For more detailed information on the 2001 Census range of products and services, please refer to the *2001 Directory of Census Statistics* (cat. no. 2910.0).

Census products fall into two broad types: reference products and data products. Most of the reference products from the 2001 Census are available free of charge from the Australian Bureau of Statistics (ABS) web site.

CENSUS REFERENCE PRODUCTS

2001 Census Dictionary

The *2001 Census Dictionary* (cat. no. 2901.0) is a comprehensive reference guide to the 2001 Census of Population and Housing. The Dictionary includes a complete listing of 2001 Census classifications. It describes new topics introduced for 2001 and highlights classification changes that have occurred since the 1996 Census. The Dictionary also explains the concepts relevant to census collection, processing and output of data.

How Australia Takes a Census

How Australia Takes a Census (cat. no. 2903.0) provides information about the history of the census, the planning process and the way in which the census is conducted.

Geographic Classifications and Codes

Statistical Geography: Volume 1—Australian Standard Geographical Classification (ASGC) 2001 Census Edition (cat. no. 1216.0) provides information about the names and codes of the standard geographic areas used in the 2001 Census. *Statistical Geography: Volume 2—Census Geographic Areas, Australia 2001 Census Edition* (cat. no. 2905.0) and *Statistical Geography: Volume 3—Australian Standard Geographical Classification (ASGC) Urban Centres/Localities: 2001 Census Edition* (cat. no. 2909.0) provide information on additional geographic areas.

2001 Census Statistical Local Area Maps

These reference maps show the Statistical Local Areas (SLAs) from the 2001 Census. Each map shows the boundary of an SLA and the Collection District boundaries contained within.

Digital Boundaries

Census boundaries are made available electronically as *Digital Boundaries*. They include all of the Australian Standard Geographical Classification (ASGC), Urban Centres and Localities, and Census-specific areas.

CENSUS DATA PRODUCTS

Census Snapshots

Census Snapshots are a new product designed to provide a summary overview for selected geographic areas and are available from the ABS web site, free of charge. *Census Snapshots* contain subsets of Community Profile data, including person counts, age and birthplace, presented in a narrative form for easy access by a wide audience. A 1901 *Census Snapshot* for Australia is also available to celebrate the Centenary of Federation.

Estimated Resident Population

The Estimated Resident Population (ERP) is the official ABS population estimate. It is based on census usual residence counts, and is updated quarterly using births, deaths and migration data.

Two publications containing ERP data, based on 2001 Census figures are:

- *Australian Demographic Statistics—2001 Census Edition*, cat. no. 3101.0
- *Regional Population Growth, Australia—2001 Census Edition*, cat. no. 3218.0.

Selected Characteristics

The Census of Population and Housing suite of publications contains data and commentary on various person and dwelling characteristics from the 2001 Census at selected geographic levels. There are three series of publications in the suite with the following subtitles:

APPENDIX 2 CENSUS PRODUCTS AND SERVICES *continued*

Selected Characteristics continued

- *Selected Social and Housing Characteristics, Australia 2001*, cat. no. 2015.0
- *Selected Social and Housing Characteristics for Statistical Local Areas 2001*, cat. nos 2015.1–8
- *Selected Characteristics for Urban Centres and Localities, Australia 2001*, cat. no. 2016.0
- *Selected Characteristics for Urban Centres and Localities 2001*, cat. nos 2016.1–7
- *Selected Education and Labour Force Characteristics, Australia 2001*, cat. no. 2017.0
- *Selected Education and Labour Force Characteristics for Statistical Local Areas 2001*, cat. nos 2017.1–8.

Community Profile Series

The Community Profile Series provides detailed and comprehensive census characteristics of people, families and dwellings for small areas. This series is available for all standard census geographic areas, and is available in hardcopy and electronic formats.

The series comprises six Community Profiles:

- *Basic Community Profile* (cat. no. 2001.0) contains 33 tables of detailed data covering dwelling, household and family topics. This profile is available for all standard census geographic areas, Commonwealth and State Electoral Divisions, Postal Areas, and Suburbs, for the states/territories and Australia.
- *Indigenous Profile* (cat. no. 2002.0) contains 29 tables of key Census characteristics for Aboriginal and Torres Strait Islander people, for all ASGC areas from Statistical Local Area (SLA) level to whole of Australia, as well as Indigenous Areas and Aboriginal and Torres Strait Islander Commission (ATSIC) regions.
- *Time Series Community Profile* (cat. no. 2003.0) contains 22 tables comparing data from the 1991, 1996 and 2001 Censuses where the classifications are comparable. Data are presented on 2001 geographic boundaries.
- *Usual Residents Profile* (cat. no. 2004.0) contains 28 tables of data for persons usually resident in the selected area. This is the only community profile based on place of usual residence.
- *Expanded Community Profile* (cat. no. 2005.0) contains 49 tables available for SLAs and larger areas, comprising more detailed versions of some of the Basic Community Profile tables, plus additional tables.
- *Working Population Profile* (cat. no. 2006.0) contains 19 tables of labour force and related data on the characteristics of employed people.

Classification Counts

Classification Counts (cat. nos 2022.0–8) provide frequency counts for 2001 Census variables in complete classificatory detail, for every state/territory and Capital City Statistical Division, cross-classified by sex where applicable.

CLIB2001

CLIB2001 is an electronic product provided free of charge to public libraries through the ABS Library Extension Program. The product contains a large volume of tabulated data and software that allows access, display and printing of the data. For 2001 this product will be available as both a CD-ROM and (limited access) Internet-based product. *CLIB2001* comprises the complete 2001 Census Community Profile Series and Classification Counts.

CDATA 2001

CDATA 2001 is a CD-ROM product which contains a large volume of tabulated census data, digital boundaries and base map data, with software to produce tables, maps and graphs of the data. The product is available at the Australia and state/territory levels.

APPENDIX 2 CENSUS PRODUCTS AND SERVICES *continued*

CDATA 2001 continued

There are two *CDATA 2001* products available, offering different levels of functionality:

CDATA 2001—Full Geographical Information System (GIS): This version is aimed at the expert GIS user who requires detailed spatial data analysis using Structured Query Language, geocoding and importation of 'client own' data.

CDATA 2001—Quickbuild: This version has been designed for GIS users with more basic spatial analysis requirements. It allows users to produce data reports, graphs and/or maps. The product is aimed at inexperienced or intermediate GIS users. *CDATA 2001—Quickbuild* users will also have the option to upgrade to *CDATA 2001—Full GIS* if so desired.

Social Atlas Series

The *Social Atlas* (cat. nos 2840.1–8) publications feature colour maps of the key social, demographic and economic characteristics of each capital city. These will be released from November 2002.

Australia in Profile—A Regional Analysis

Australia in Profile—A Regional Analysis (cat. no. 2032.0) provides commentary and data on a number of key social indicators from the 2001 Census, with the focus on regional distributions and comparisons.

CONSULTANCY SERVICES

The following census specific services are available:

- *Customised Profiles Service* provides community profile data tailored to your needs, on a variety of media.
- *Customised Table Service* provides detailed cross-classified tables tailored to your needs on a variety of media.
- *Customised Geographic Data Reports Service* provides tabular geographic data which relate specifically to the census Geographic Areas and their characteristics (e.g. area).
- *Customised Mapping Service* provides both Customised Thematic Maps and Customised Reference Maps on request.

GLOSSARY

General descriptions of terms and concepts used in this publication are provided below. Tables are also footnoted where applicable for additional clarity. Detailed definitions of classifications and concepts are available in the *2001 Census Dictionary* (cat. no. 2901.0).

Dependent child	A dependent child is a person who is either a child under 15 years of age or a dependent student. A dependent student is any child in a family under 15 years of age, or who is aged 15–24 years and is a full-time student. To be regarded as a child the individual can have no partner or child of his/her own usually resident in the same household.
Dwelling	<p>A dwelling is a structure which is intended to have people live in it, and which is habitable on Census Night.</p> <p>There are private and non-private dwellings:</p> <ul style="list-style-type: none"> ■ A private dwelling is normally a house, flat, part of a house, or even a room; but can also be a house attached to, or rooms above, shops or offices; an occupied caravan or unit in a caravan park or craft in a marina; occupied dwelling in a Manufactured Home Estate; occupied self-care unit in Accommodation for the Retired or Aged; a houseboat; or tent if it is standing on its own block of land. An occupied caravan situated on a residential allotment is also classed as a private dwelling. Private dwellings can be either occupied or unoccupied. ■ Non-private dwellings are those dwellings not included above, which provide a communal or transitory type of accommodation. They are classified according to their function. These dwellings include hotels, motels, guest houses, prisons, religious and charitable institutions, defence establishments, hospitals and other communal dwellings. Only occupied non-private dwellings are included in the Census.
Employed	Employed people are those aged 15 years or more who, during the week prior to Census Night, worked for payment or profit; who had a job from which they were on leave or otherwise temporarily absent; were on strike or stood down temporarily; or worked as unpaid helpers in a family business.
Family	A family is defined by the ABS as two or more persons, one of whom is at least 15 years of age, who are related by blood, marriage (registered or de facto), adoption, step or fostering, and who are usually resident in the same household. The basis of a family is formed by identifying either a couple, parent-child or other blood relationship. Information on persons temporarily absent on Census Night is considered in family coding.
Full-time/Part-time employment	<p>This variable is based on the number of hours worked in all jobs held by employed people during the week before Census Night. It excludes any time off but includes any overtime or extra time worked:</p> <ul style="list-style-type: none"> ■ Part-time workers: employed people who worked up to 34 hours ■ Full-time workers: employed people who worked 35 hours or more.
Geographic areas	<p>The tables in this publication use both the Section of State and Urban Centre/Locality classification structures as defined by the 2001 Census edition of the Australian Standard Geographical Classification (ASGC).</p> <p><i>Section of State (SOS):</i> The SOS Structure uses population counts from the latest Census of Population and Housing to class CDs as either urban or rural. Unlike the UC/L Structure, the SOS Structure includes all CDs and therefore, in aggregate, the SOS Structure covers all of Australia. For the 2001 edition, three of the five different SOS have been divided into sub categories based on population size. Data for these sub categories are available through the Consultancy Services listed in <i>Appendix 2—Census Products and Services</i>.</p>

GLOSSARY *continued*

Geographic areas *continued*

Within a state/territory (S/T), each SOS represents an aggregation of non-contiguous geographical areas of a particular urban/rural type. These are based upon the UC/Ls current for the census year 2001. Not all SOS are represented in each S/T. The categories are:

- Major Urban: this category provides for a further three categories of urban areas (Urban Centres from the UC/L Structure) based upon population ranges of 1,000,000 or more, 250,000 to 999,999, and 100,000 to 249,999.
- Other Urban: this category provides for a further five categories of urban areas (Urban Centres from the UC/L Structure) based upon population ranges of 50,000 to 99,999, 20,000 to 49,999, 10,000 to 19,999, 5,000 to 9,999, and 1,000 to 4,999.
- Bounded Locality: this category provides for a further two categories of rural areas (Localities in the UC/L Structure) with a population of 500 to 999 and 200 to 499.
- Rural Balance: the remainder of the S/T.
- Migratory: areas composed of off-shore, shipping and migratory CDs.

Listings of component CDs of SOS, for census year 2001, are available from the ABS as a Customised Geographic Data Report.

Urban Centre/Locality (UC/L): The UC/L structure is defined using the population counts (place of enumeration) from the 2001 Census of Population and Housing. The structure is only current at the time of the Census.

The UC/L structure groups Census Collection Districts (CDs) together to form defined areas according to population size criteria. (The delimitation criteria for UC/Ls are based on those developed in 1965 by Dr G. J. R. Linge.) In broad terms an urban centre is a population cluster of 1,000 or more people, while a locality is a population cluster of between 200 and 999 people. For statistical purposes, people living in urban centres are classified as urban, while those in localities are classified as rural.

The UC/L Structure relates to CDs within defined areas only and thus in aggregate does not cover the whole of Australia. Urban centres may cross state or territory boundaries and in those instances, the separate portions are uniquely identified and reported in their relevant state or territory.

A full description of the definitions and delimitation criteria used for the UC/Ls may be found in the publication *Statistical Geography: Volume 1—Australian Standard Geographical Classification (ASGC) 2001* (cat. no. 1216.0), Chapter 6.

The UC/Ls determined following the 2001 Census are listed in the publication *Statistical Geography: Volume 3—Australian Standard Geographical Classification (ASGC) Urban Centres/Localities, 2001* (cat. no. 2909.0).

More information: Definitions, maps and lists of codes and names of the geographic areas are available in *Statistical Geography: Volume 1—Australian Standard Geographical Classification (ASGC) 2001* (cat. no. 1216.0) effective date 1 July 2001.

HLRD01

This is a derived variable which contains the amount of money spent on housing loan repayments in ranges. In standard census products, ranges are used rather than individual dollar amounts. Individual dollar amounts are available. More detail about this variable is available in the *2001 Census Dictionary* (cat. no. 2901.0).

Household

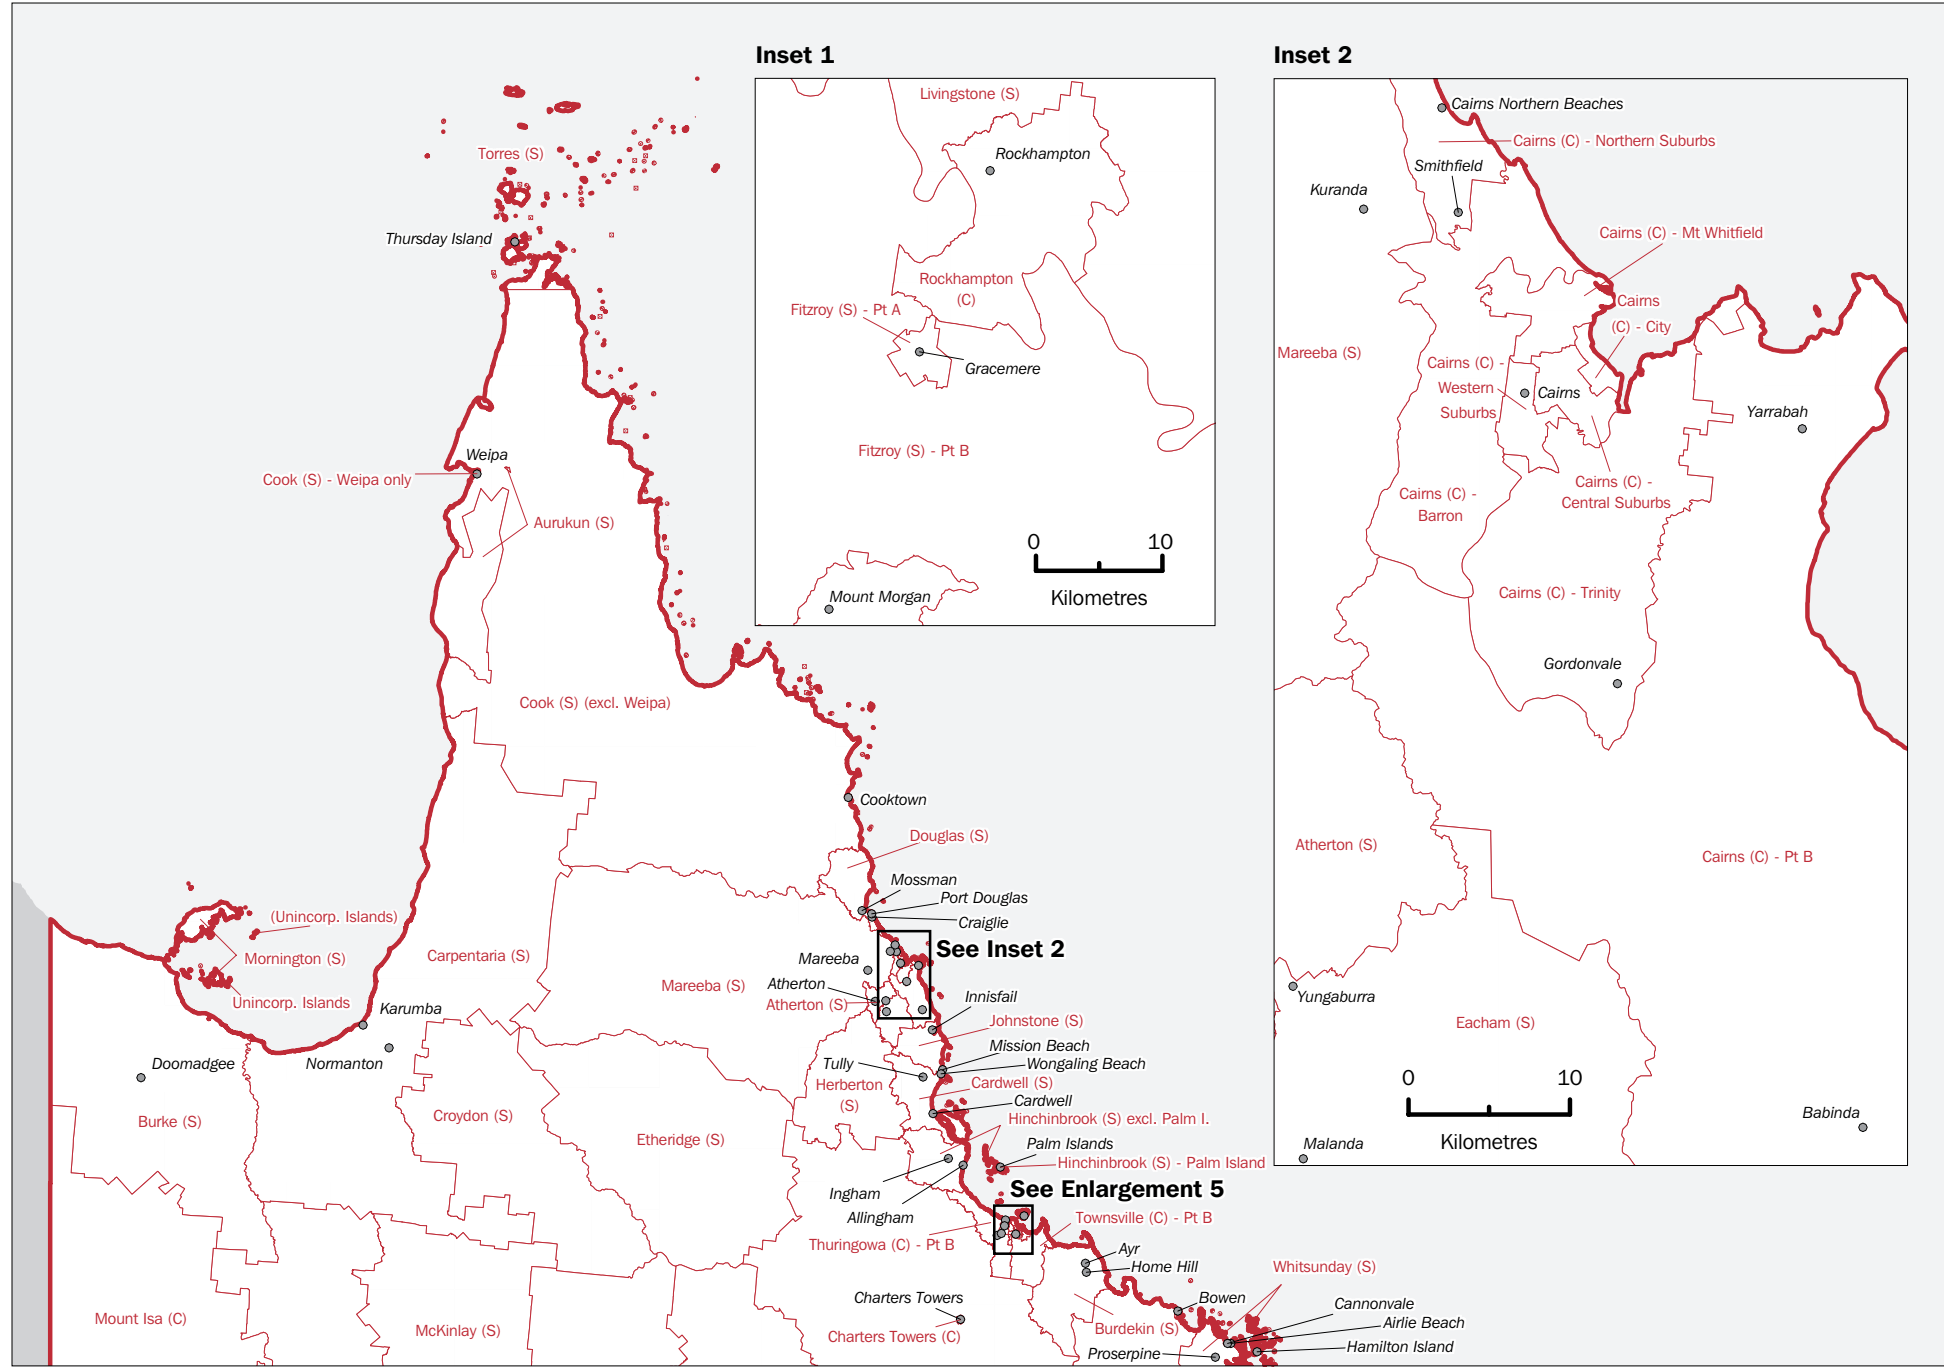

A household is defined as a group of two or more related or unrelated people who usually reside in the same dwelling, who regard themselves as a household, and who make common provision for food or other essentials for living; or a person living in a dwelling who makes provision for his/her own food and other essentials for living, without combining with any other person.

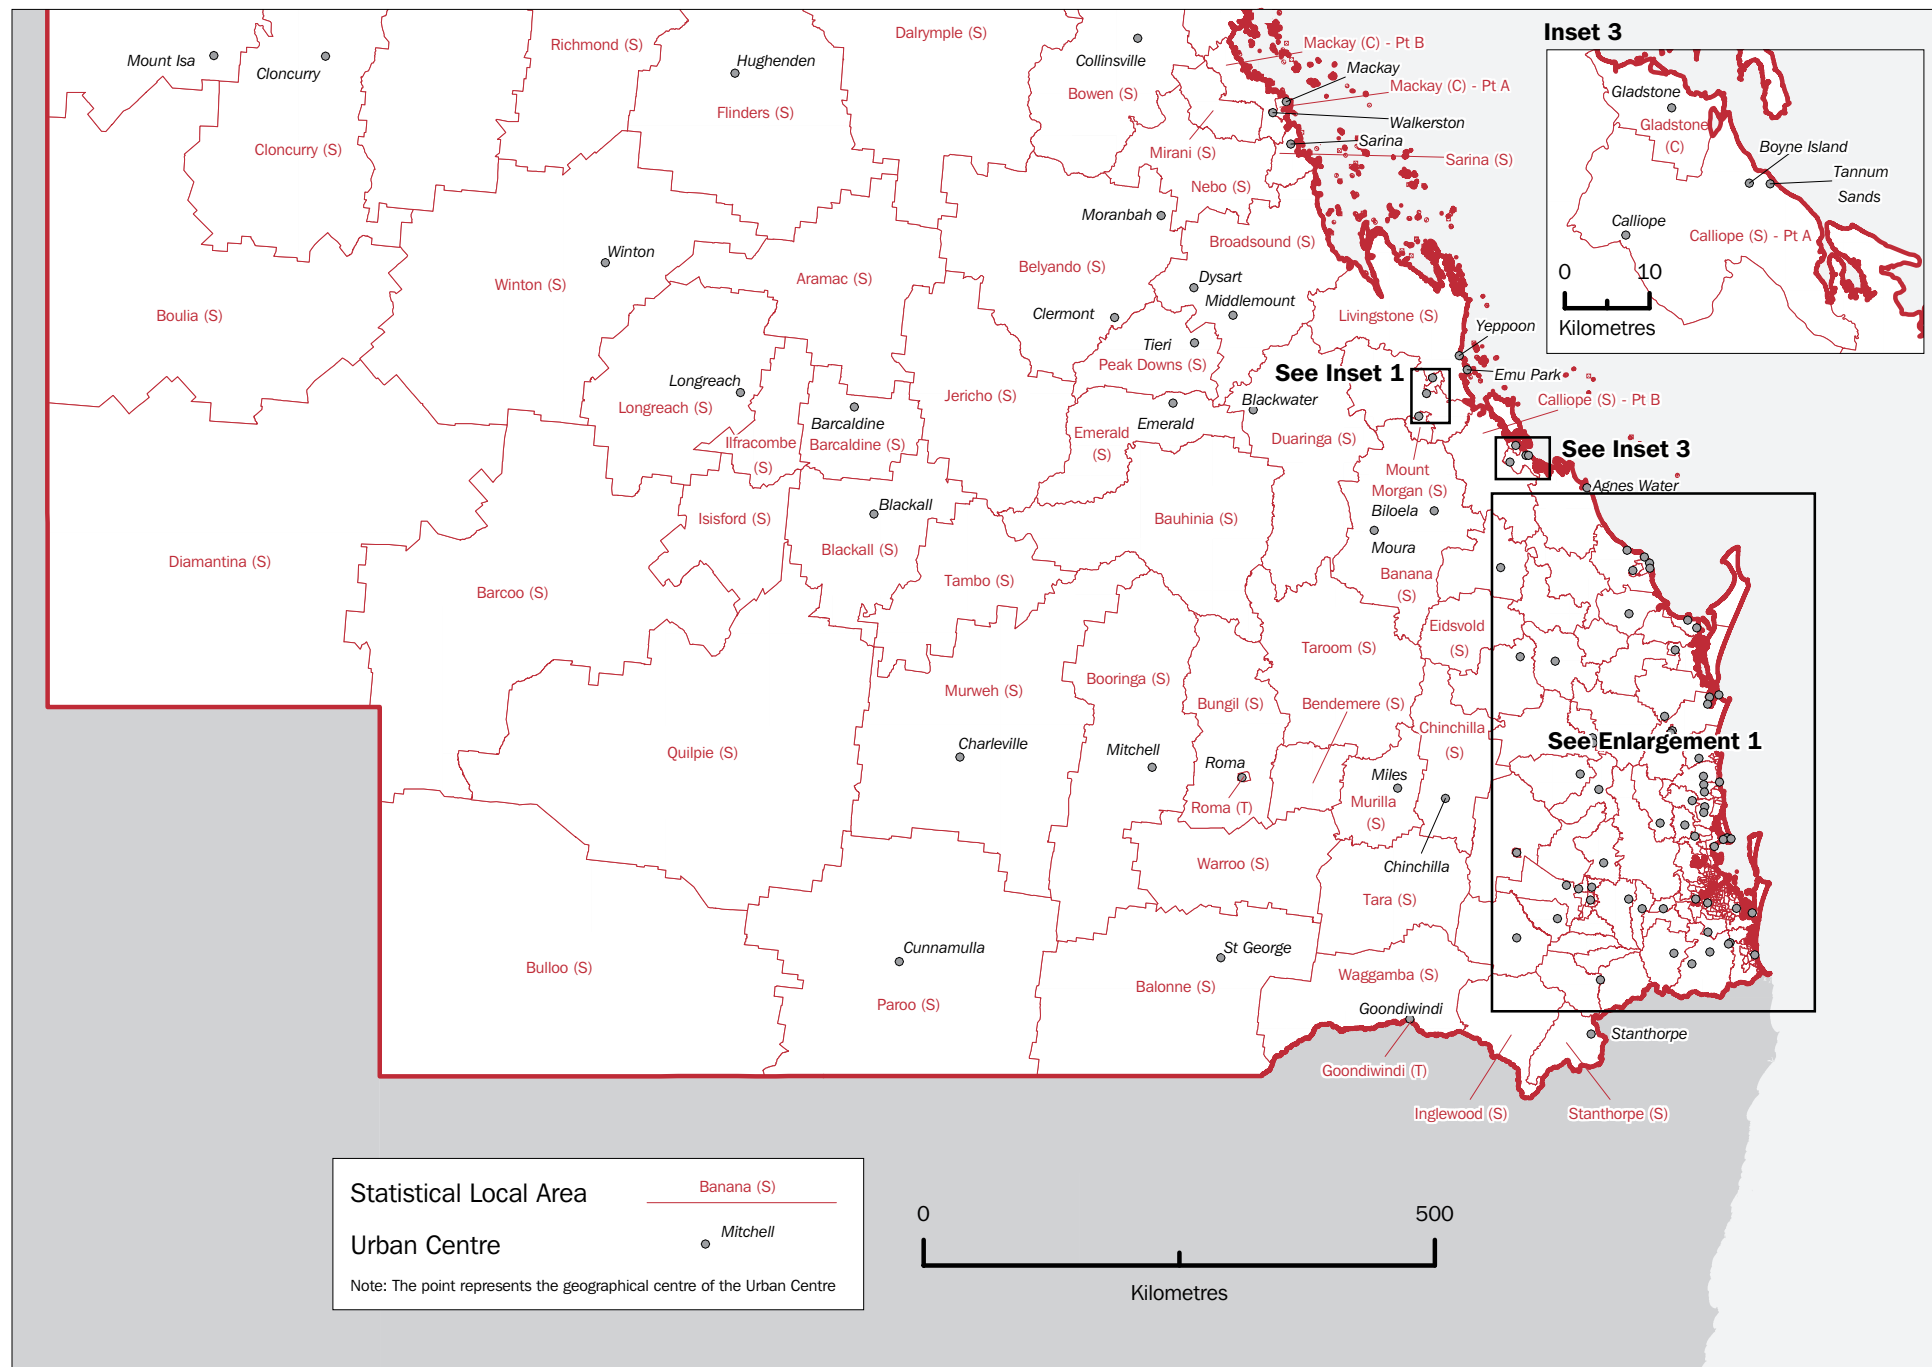

GLOSSARY *continued*

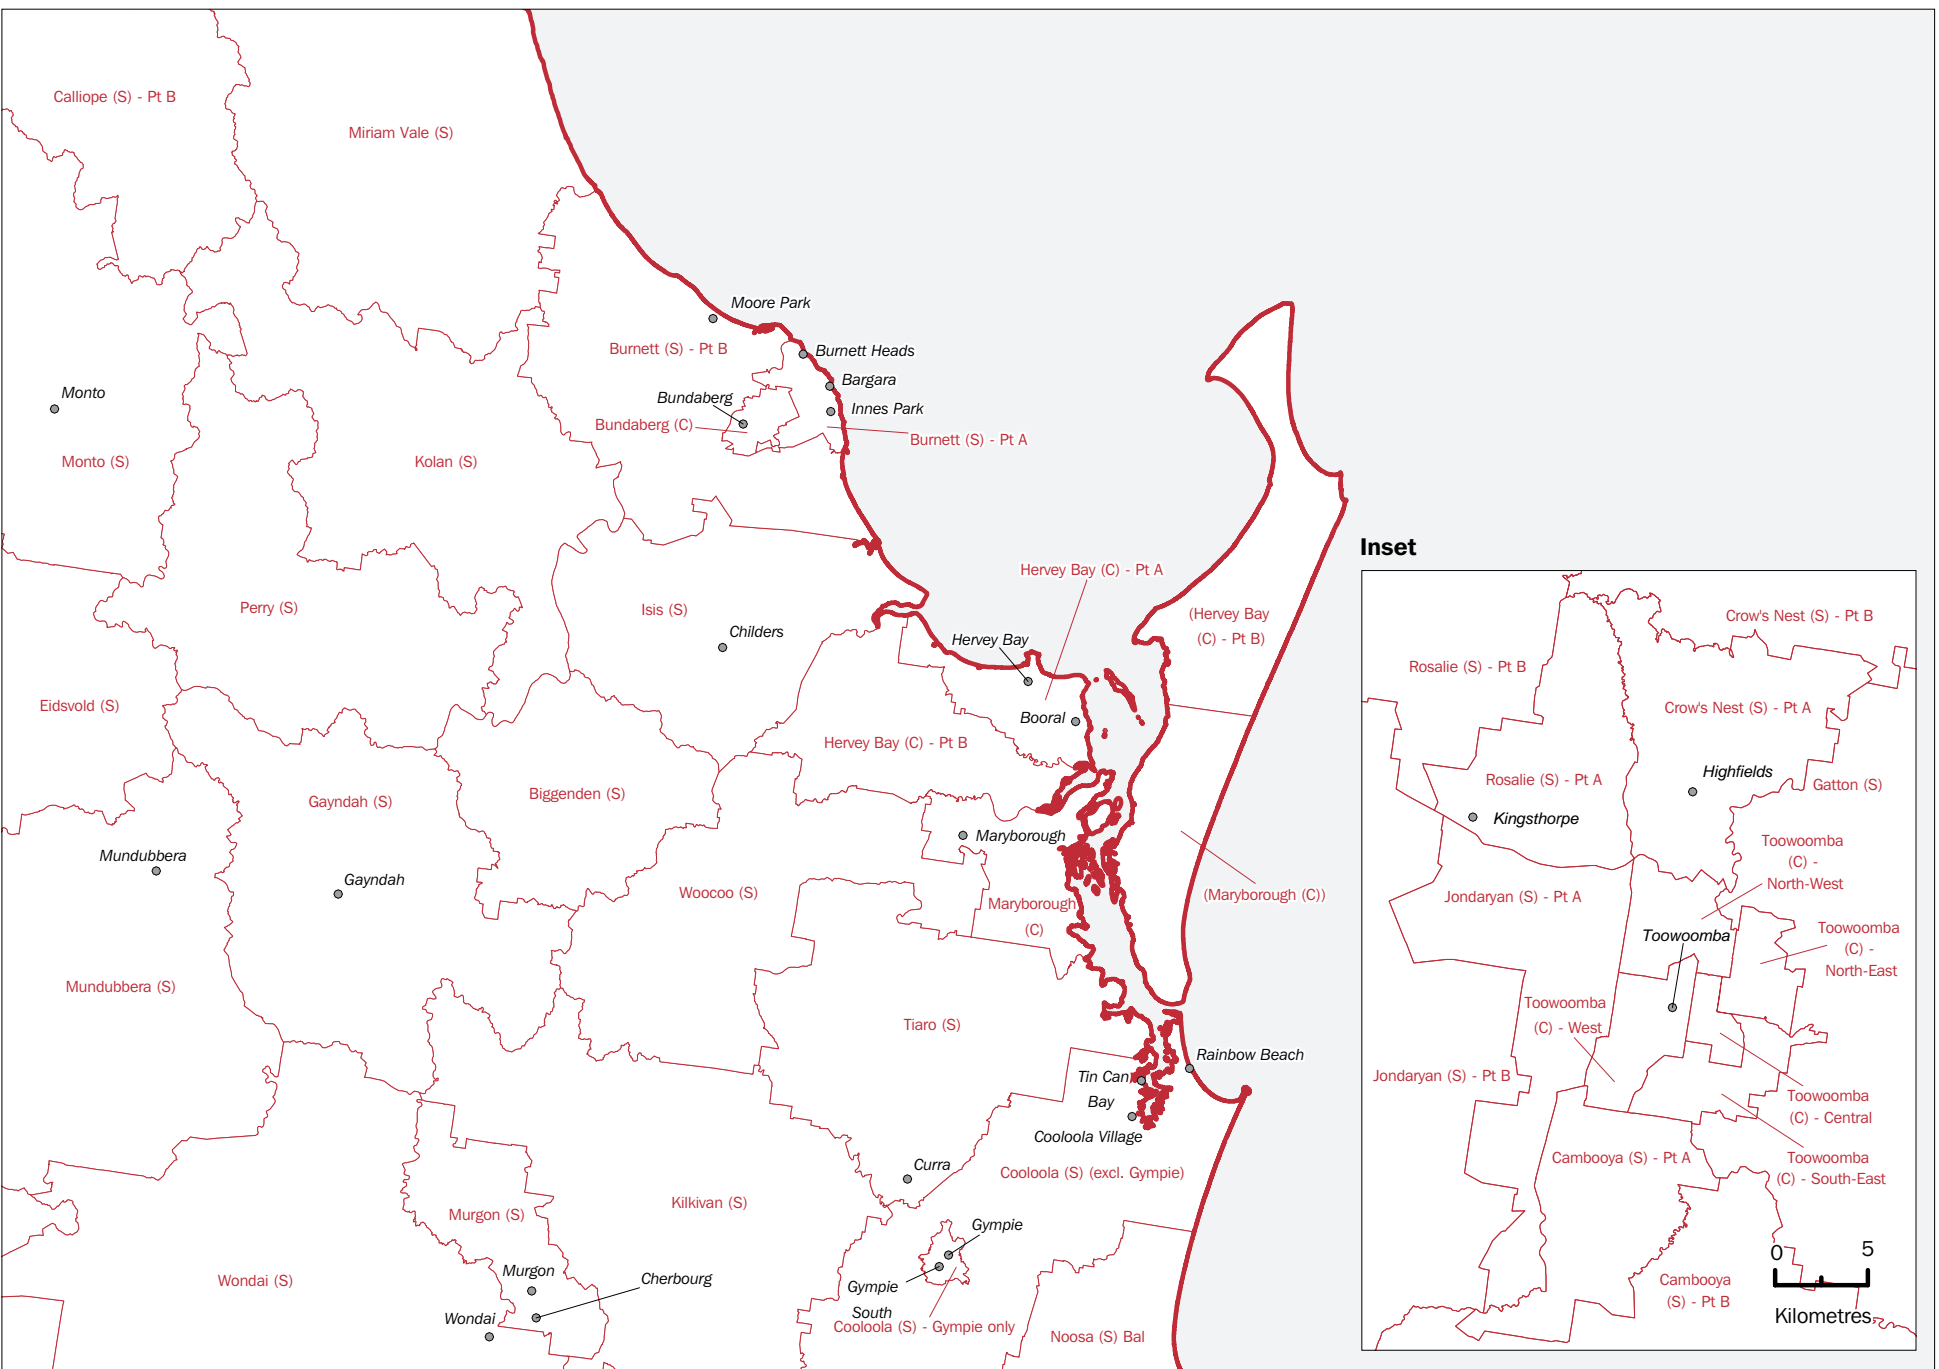

Household <i>continued</i>	Under this definition, in a group house where occupants share the dwelling, each occupant who usually supplies his/her own food should be counted as a separate household and issued with a separate Household Form. In practice, however, most such households usually only complete one form.
Income	<p>People aged 15 years and over are asked to indicate their usual gross weekly income by selecting an income range on the census form. There are 16 options ranging from 'Negative income', 'Nil income' through to '\$1,500 or more'. For example, a person with a gross weekly income of \$650 per week would tick the range '\$600–\$699'. Gross weekly income is the income before tax, superannuation, health insurance, or other deductions are made. Gross income includes: family allowance, parenting payment, pensions, unemployment benefits, student allowances, maintenance (child support), superannuation, wages, salary, overtime, dividends, rents received, interest received, business or farm income (less operation expenses) and worker's compensation received.</p> <p>Household income is the sum of the personal incomes of each resident present in the dwelling.</p>
Indigenous	A person is defined to be of Indigenous origin if he or she identifies himself or herself as of Aboriginal and/or Torres Strait Islander origin.
Industry (of employment)	This variable describes the industries in which employed people (aged 15 years and over) work, and is coded to the <i>Australian and New Zealand Standard Industrial Classification (ANZSIC), 1993</i> (cat. no. 1292.0).
Internet	Internet includes: Internet connections in private and business applications; Internet connection through a computer or set top box, games machine, mobile phone, or other means; and Internet used at other locations including libraries, Internet cafes, shops, educational institutions, or at a neighbour or friends place of residence.
Labour force	The labour force comprises employed and unemployed people aged 15 years and over.
Locality	See definition under Geographic areas.
Lone person household	A person who usually lives alone in a private dwelling.
Occupation (of main job)	This variable describes the main job held by employed people (aged 15 years and over) during the week prior to Census Night, and is coded using the <i>ASCO—Australian Standard Classification of Occupations, Second Edition</i> (cat. no. 1220.0).
Overseas-born	Overseas-born people are those who state that they were born in a country other than Australia, those born at sea, and those whose responses are classed as 'Inadequately described' or 'Not elsewhere classified'.
Personal Computer (PC)	PCs include: computers used at home for private and business purposes, portable computers, personal organisers, computers brought home from the workplace, and dedicated word processors. Game machines are not included.
RNTD01	This is a derived variable which identifies the weekly rent paid for a dwelling in ranges. In standard census products, ranges are used rather than individual dollar amounts. Individual dollar amounts are available. More detail about this variable is available in the <i>2001 Census Dictionary</i> (cat. no. 2901.0).
Section of State	See definition under Geographic areas.
Student	A student is an individual who attends a secondary or tertiary educational institution on a full-time/part-time basis.

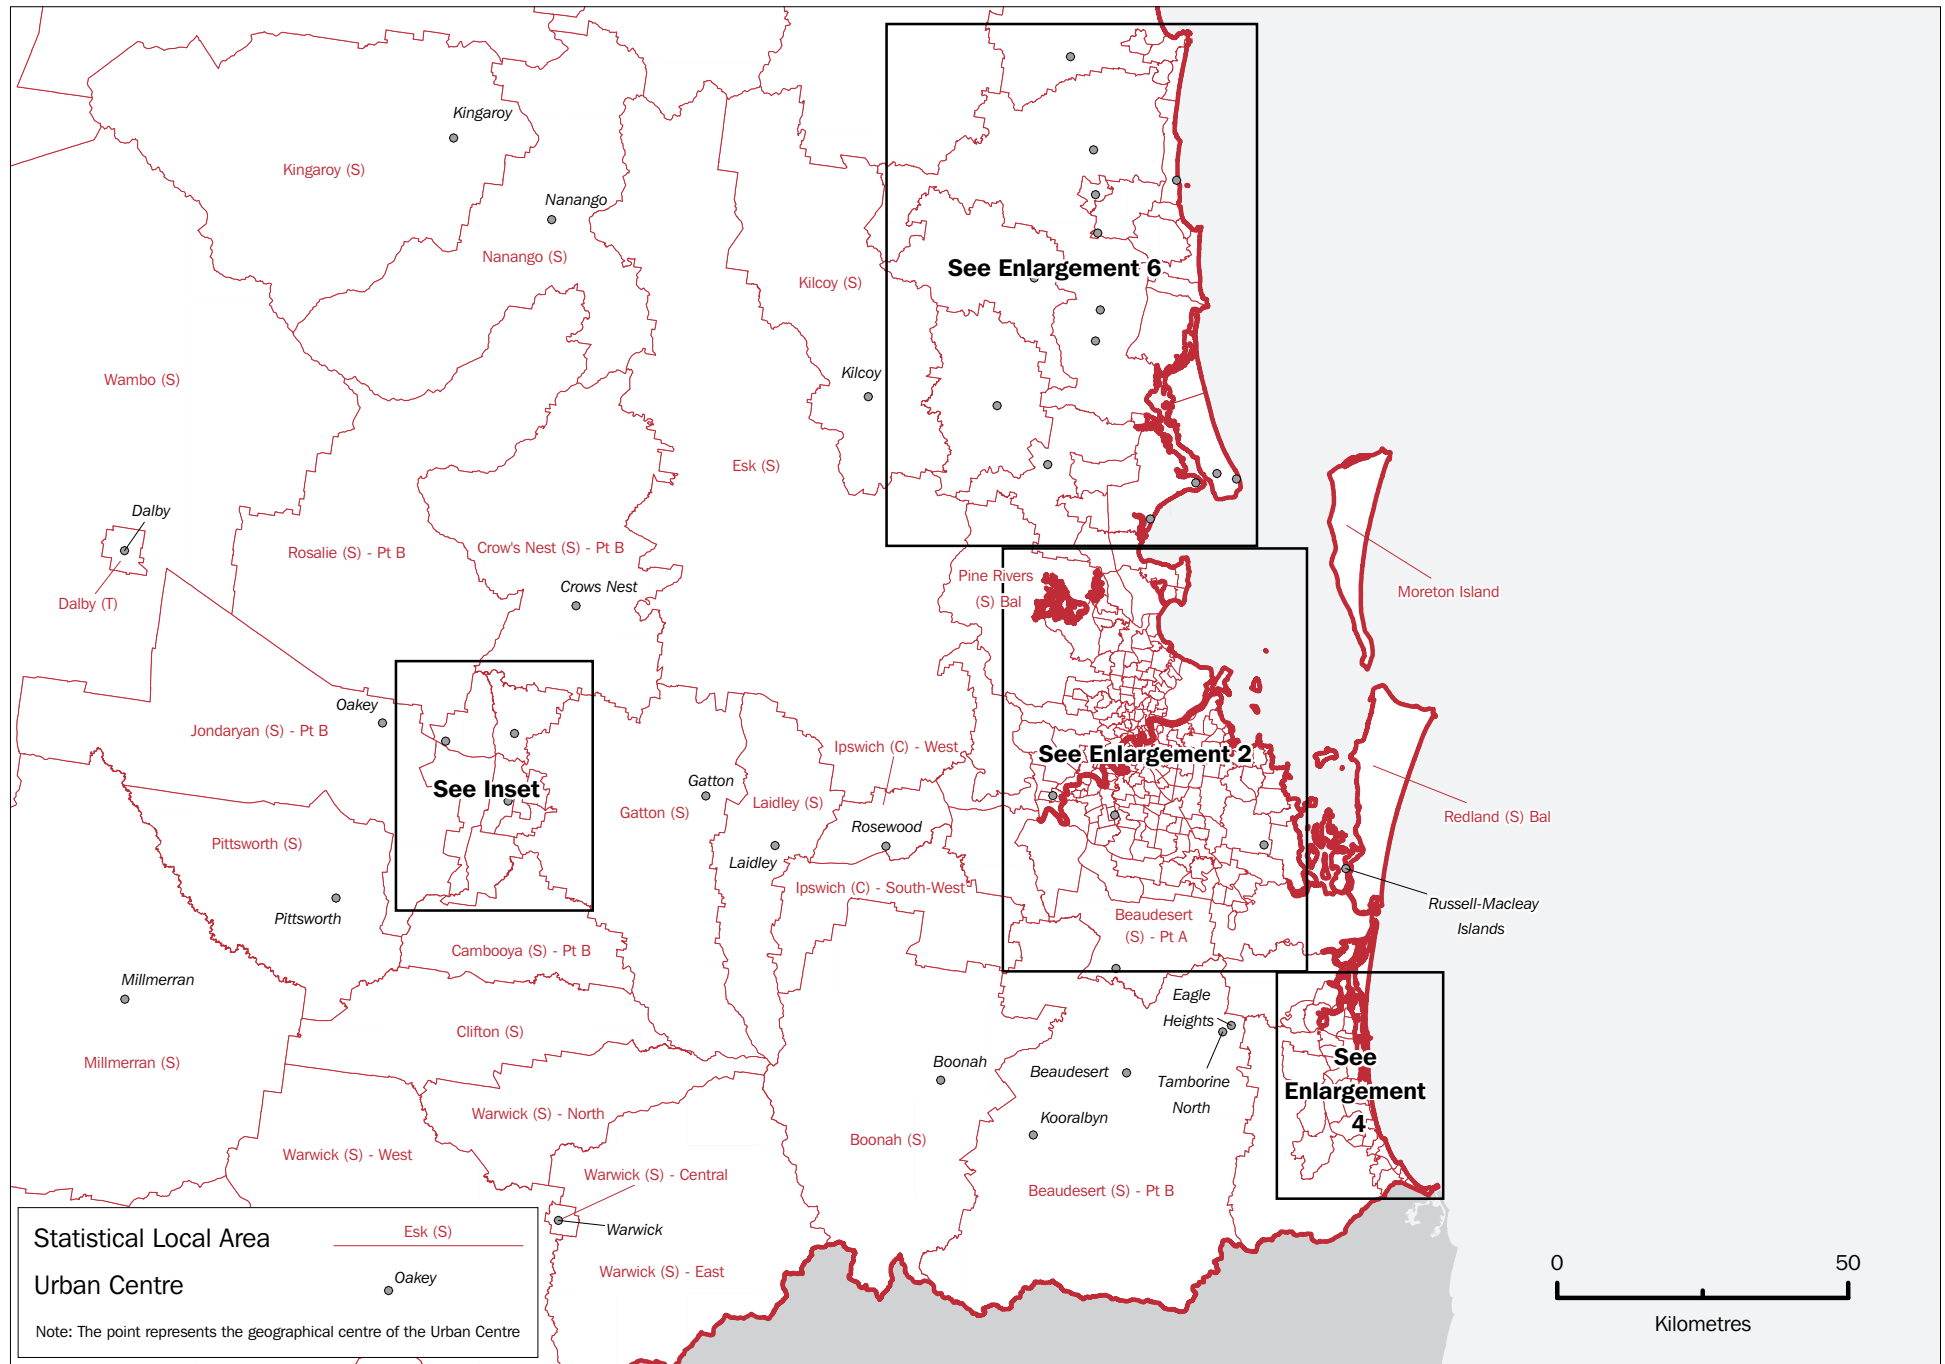

GLOSSARY *continued*

Unemployed	Unemployed people are those who, during the week prior to Census Night, did not have a job but were actively looking for work (either full-time or part-time) and were available to start work.
Unemployment rate	The unemployment rate is the number of unemployed persons expressed as a percentage of the labour force.
Urban Centre	See definition under Geographic areas.

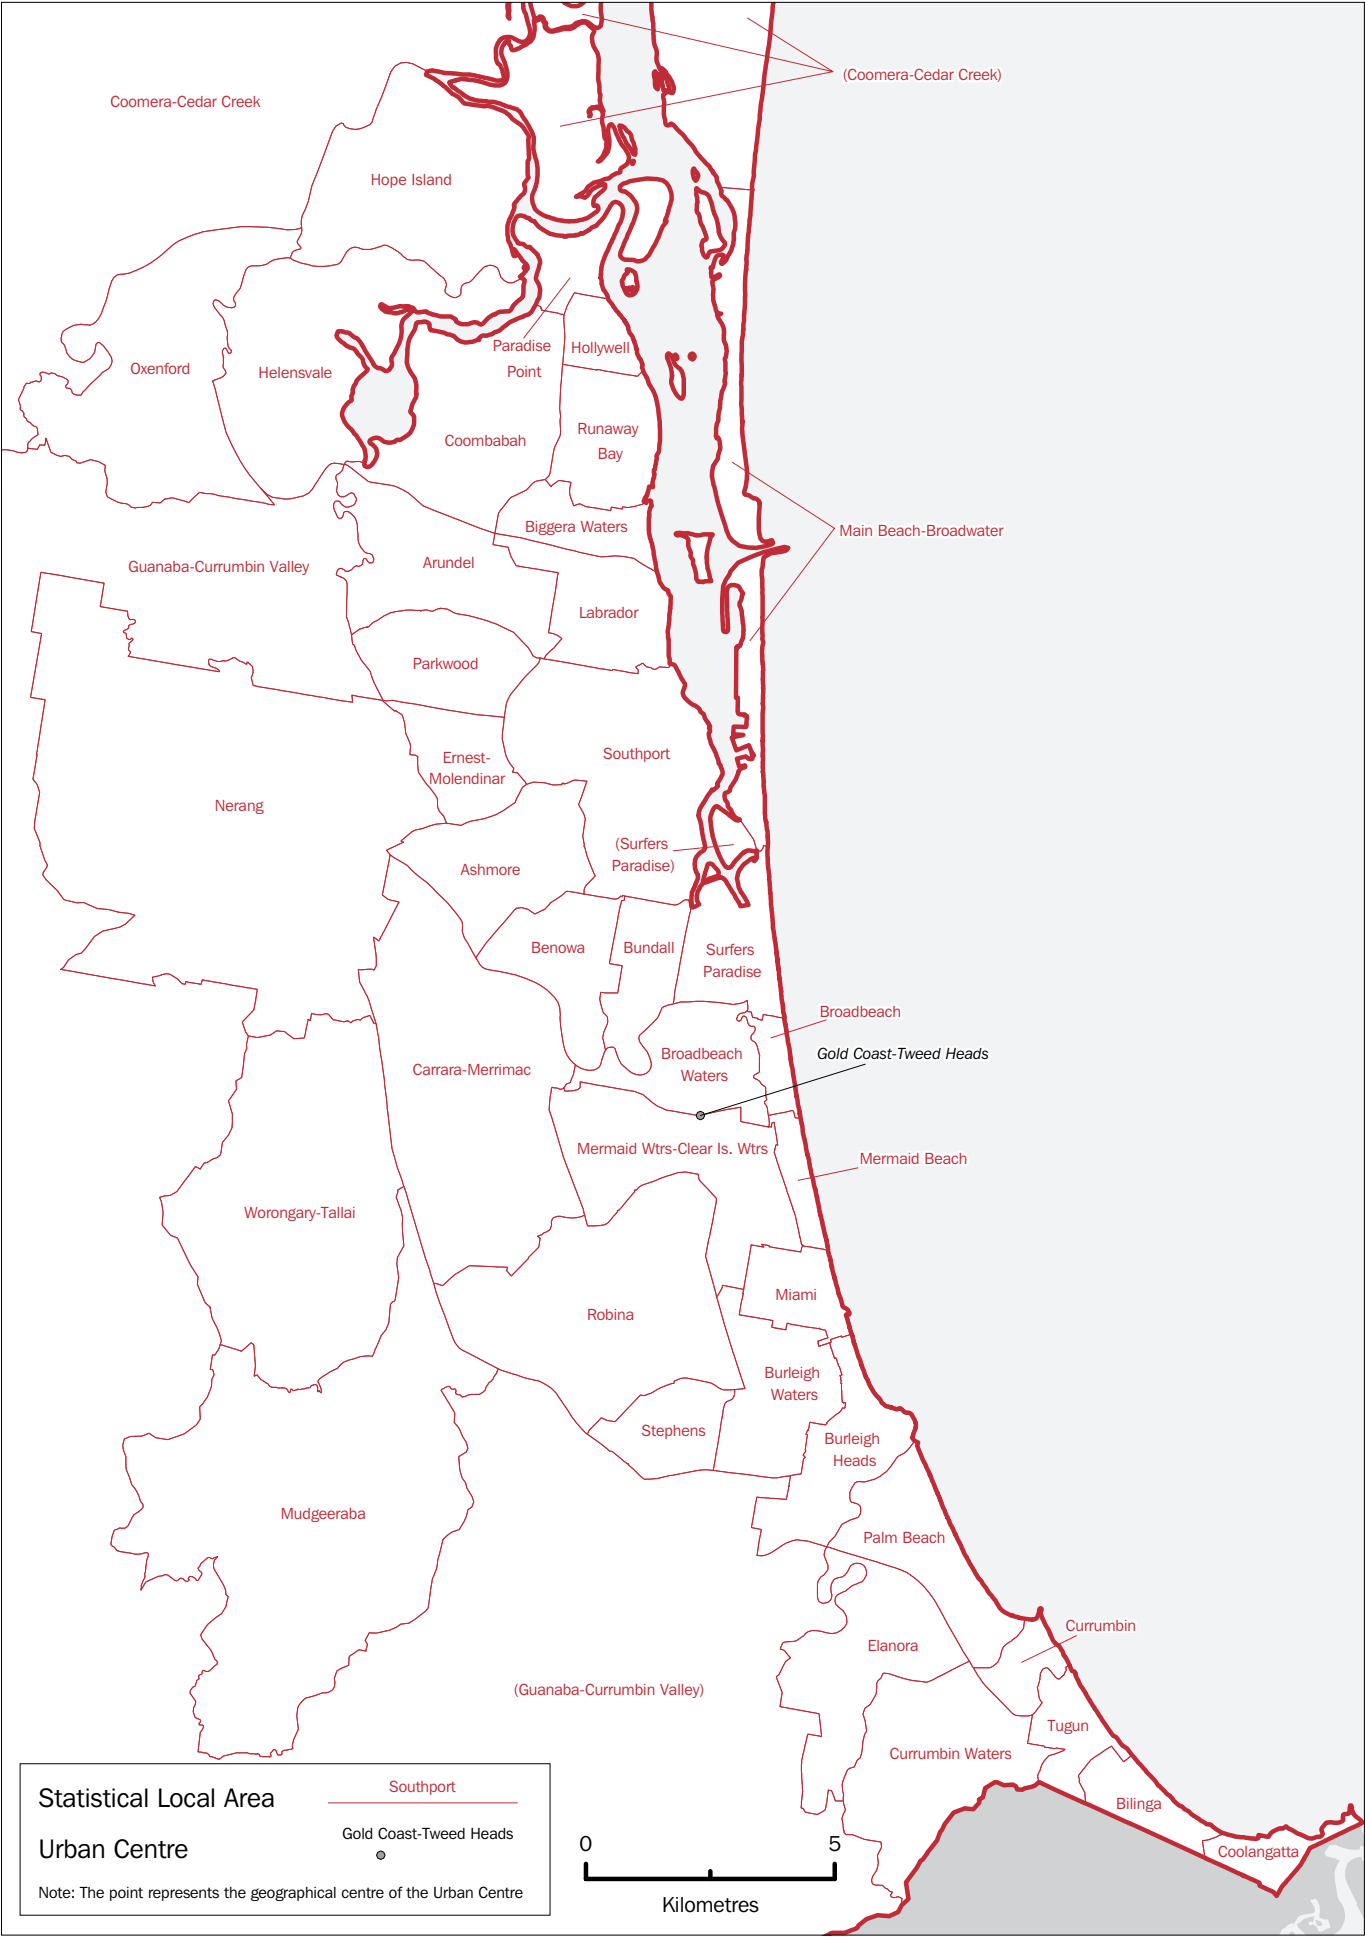

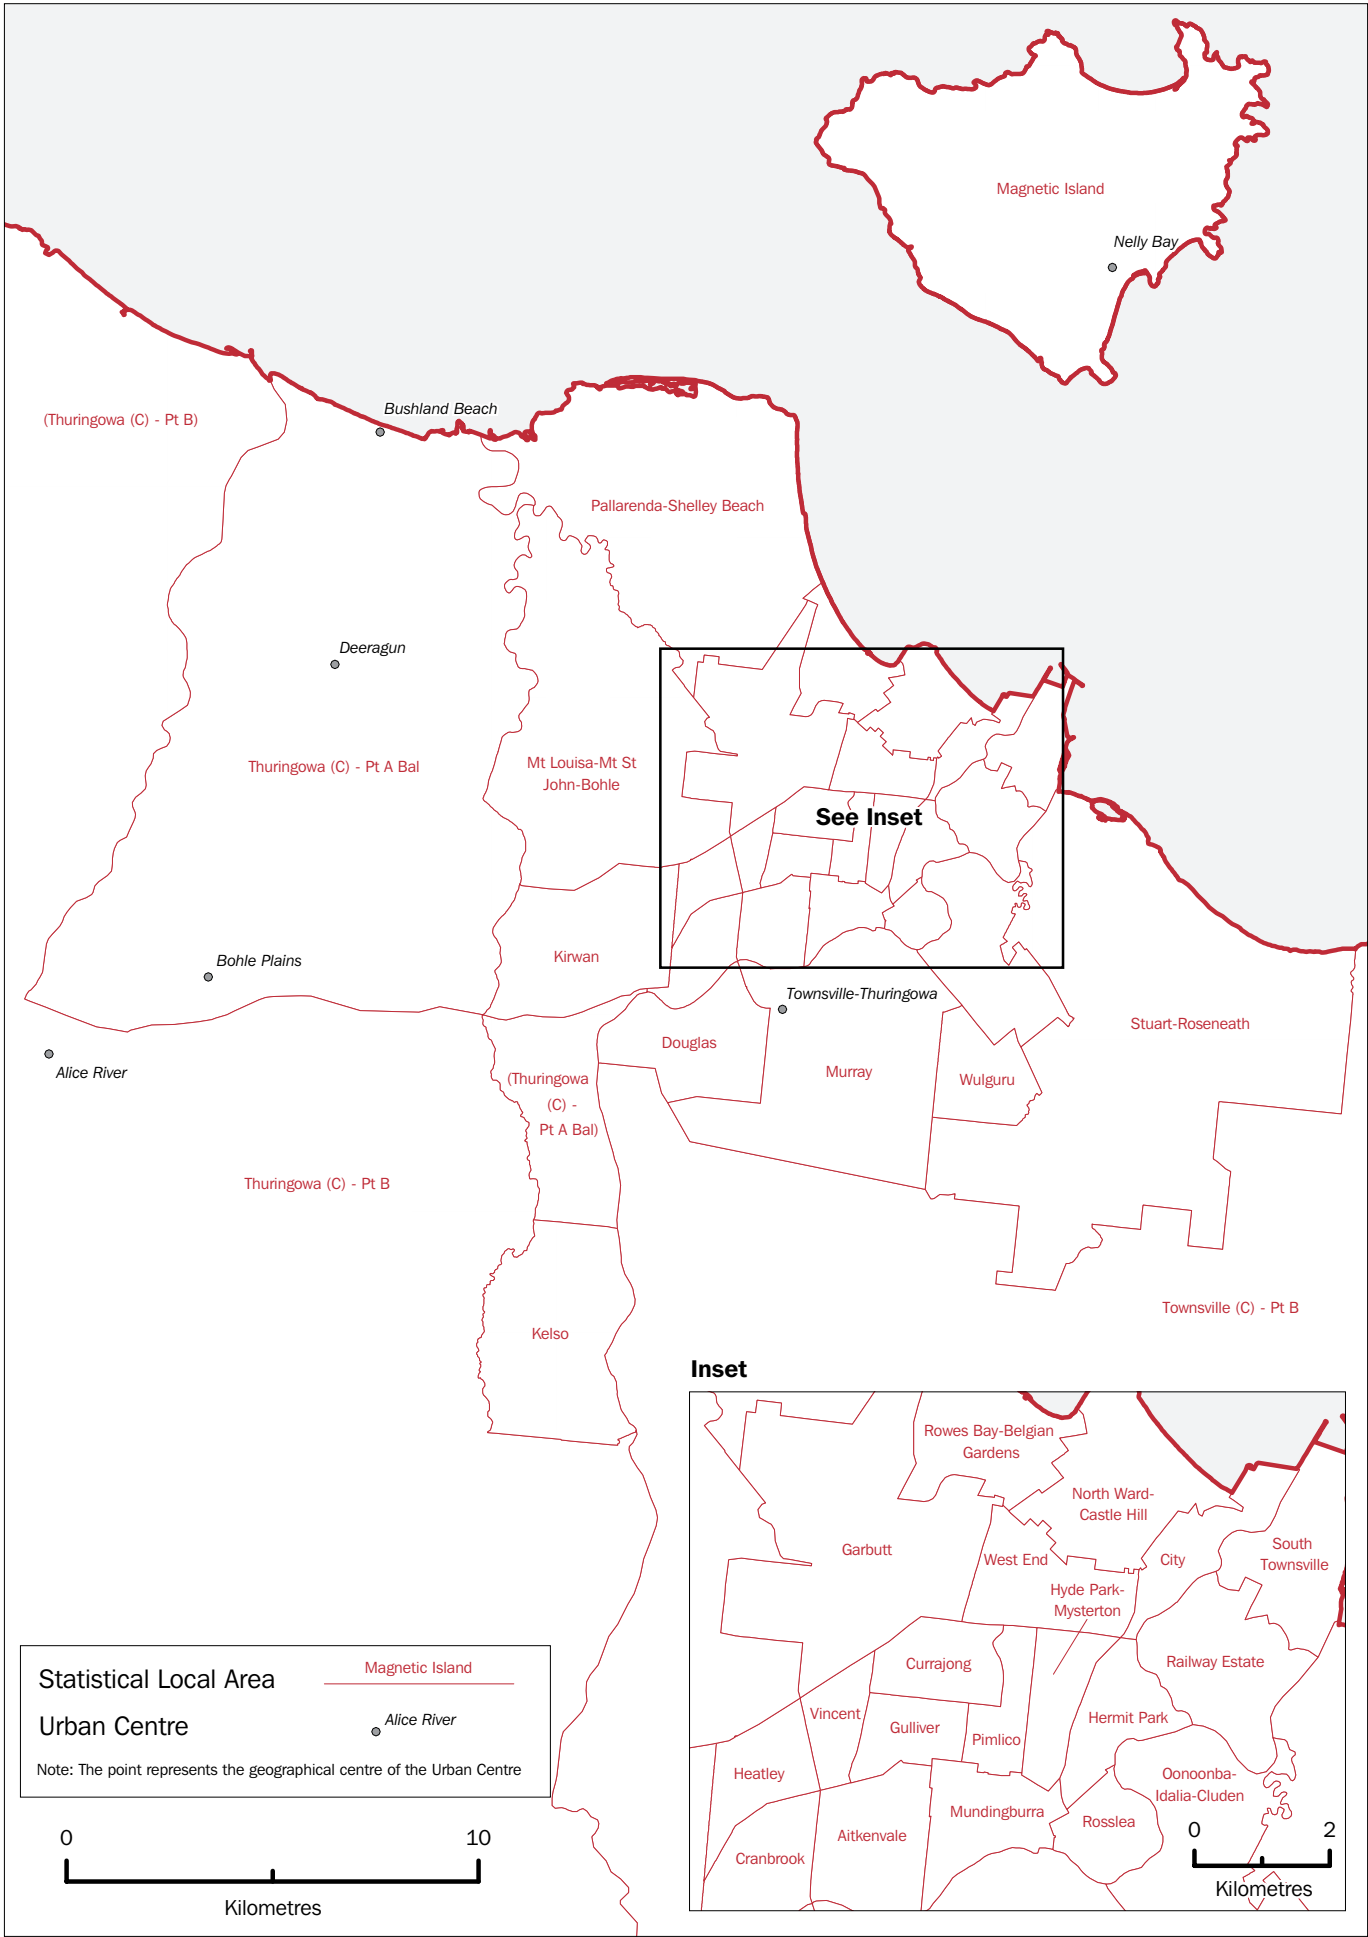

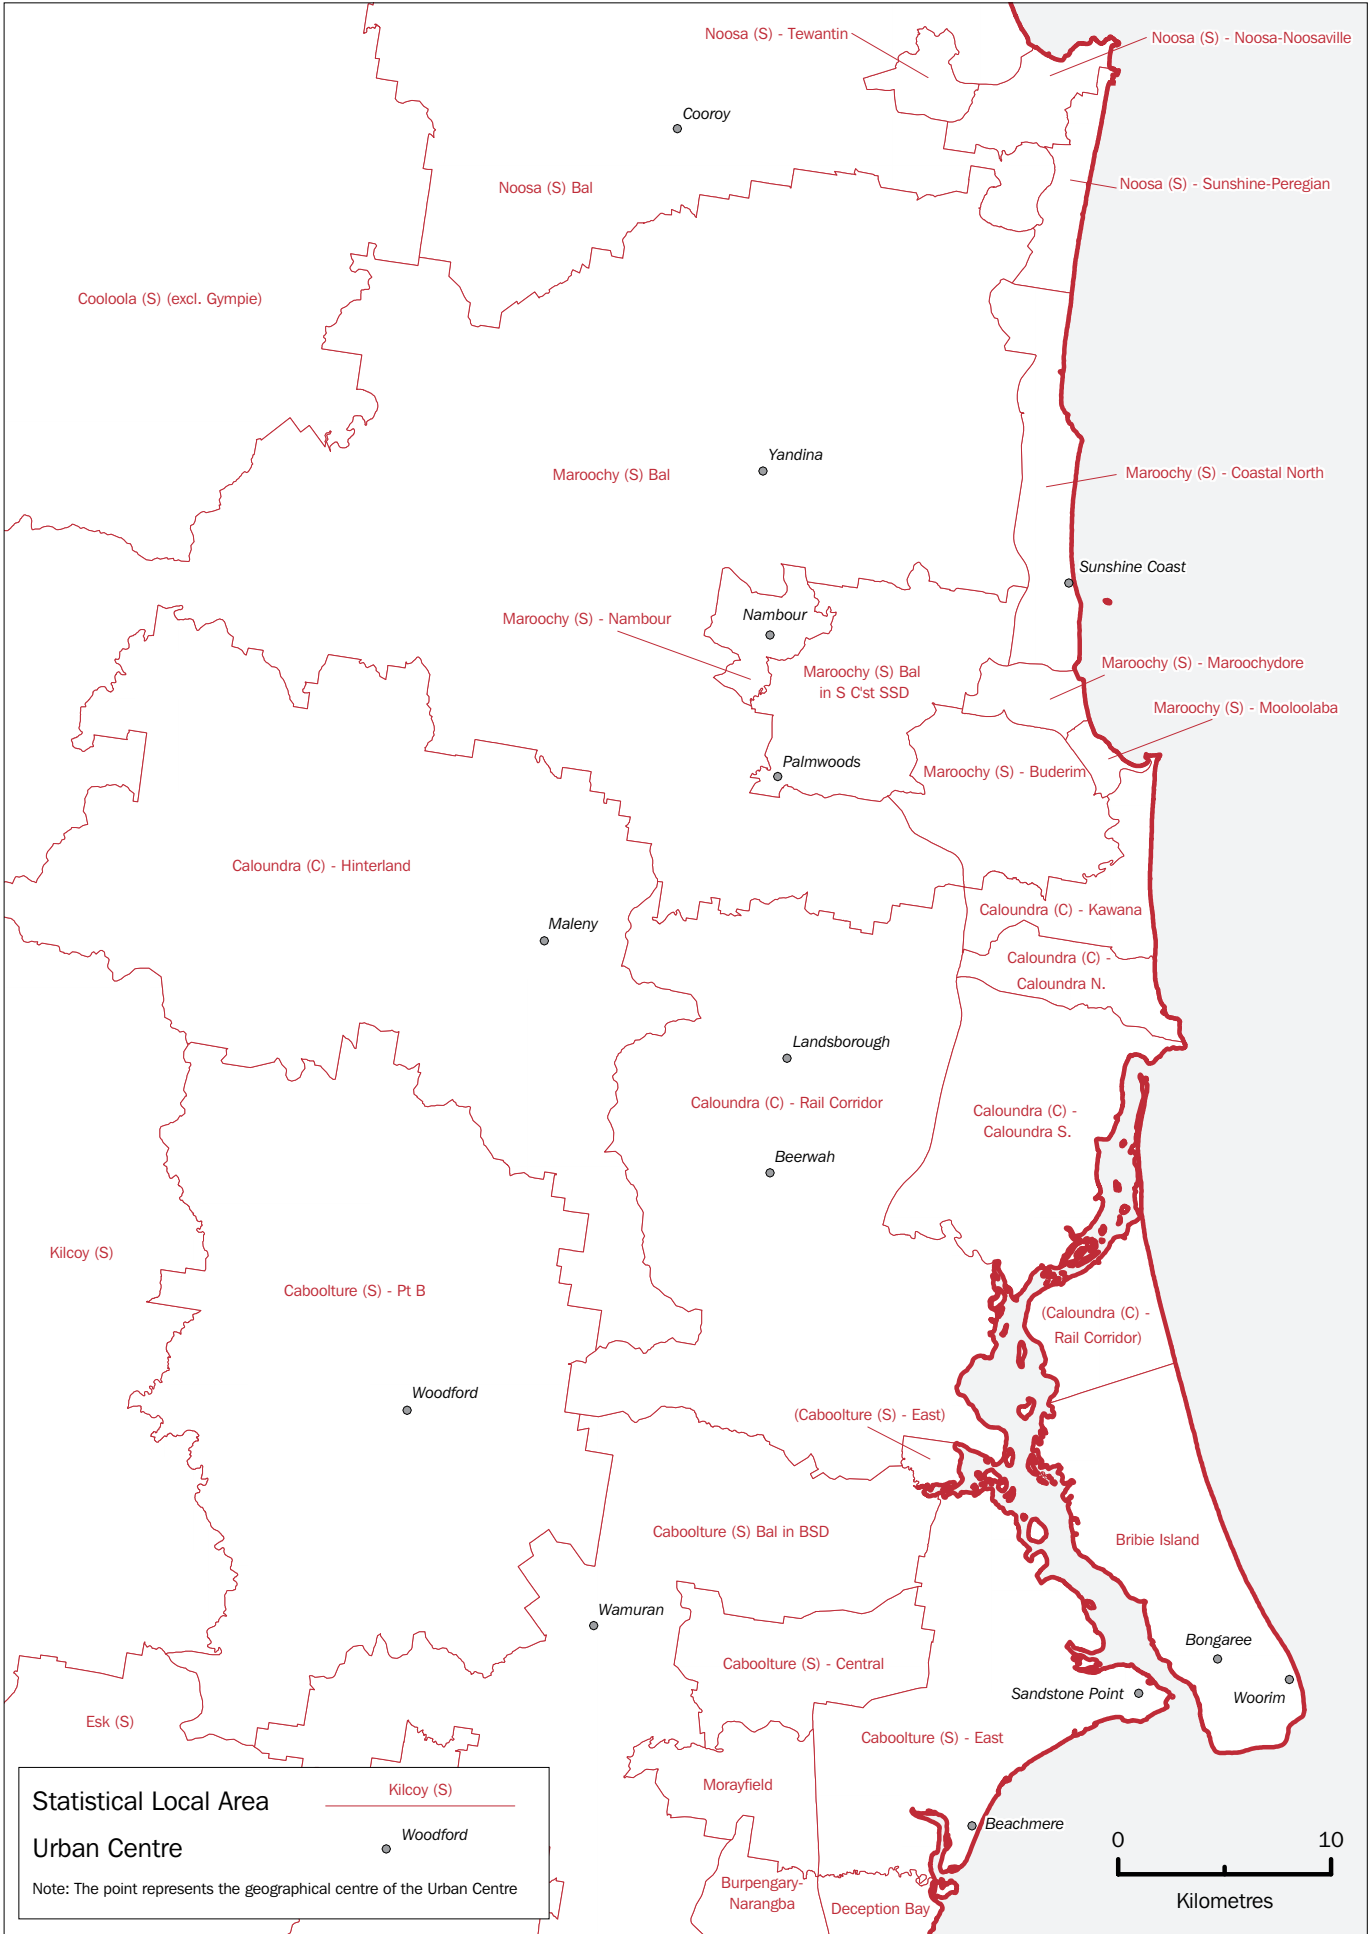

FOR MORE INFORMATION...

<i>INTERNET</i>	www.abs.gov.au the ABS web site is the best place to start for access to summary data from our latest publications, information about the ABS, advice about upcoming releases, our catalogue, and Australia Now—a statistical profile.
<i>LIBRARY</i>	A range of ABS publications is available from public and tertiary libraries Australia-wide. Contact your nearest library to determine whether it has the ABS statistics you require, or visit our web site for a list of libraries.
